National Conference

Held in odd numbered years in a city with multiple early childhood centers, conferences provide opportunities for local educators of all affiliations to come together to study and collaborate. A cutting edge topic is chosen as the theme and learning is enhanced through a prominent keynote speaker, special guests, and a variety of workshops. Conference attendees will strengthen their partnerships, classroom and school management skills, specific teaching strategies, spiritual growth and Judaic knowledge.

Intensive Kallah

Held in even numbered years, a kallah is a more intimate learning experience hosted in an exciting venue. A Scholar in Residence leads this smaller community of learners. Attendees explore the kallah theme on a deep and meaningful level in this supportive setting. Guest speakers facilitate additional exploration of the kallah theme as well as opportunities for meaningful application.
